

ARTICULATE STORYLINE 3

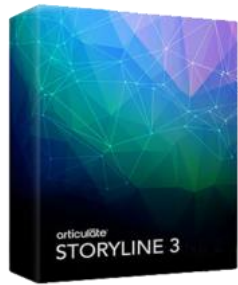

**EVERYTHING YOU NEED FOR EVERY
ASPECT OF ELEARNING DEVELOPMENT.**

Join this fun and interactive training programme and learn how easy it is to develop your own eLearning courses.

This training programme will provide eLearning developers, instructional designers, in-house trainers and subject matter experts with the ability to design, build and publish their own interactive eLearning programmes using the Articulate Storyline 3 software.

WHAT WILL YOU LEARN ABOUT?

ARTICULATE STORYLINE 3 is the latest perpetual version of the award-winning software, Articulate Storyline. It's simple enough for beginners, yet powerful enough for experts, and it lets you create virtually any interaction you can imagine for every device. Deliver mobile and accessible courses with enhanced interactivity, faster, with over 30 new features.

Designed to deliver an ideal learner experience on any device, the responsive player delivers mobile-friendly playback controls and touchscreen gesture support on any screen size and orientation. Storyline 3 also includes major improvements in interactivity, video, simulations, and assessments.

OUTCOMES:

During this learning experience, learners will gain an overall understanding of Articulate Storyline 3. They will learn about the uses of the software, as well as the different types of courses that can be created with the software.

By the end of this learning experience, the learner will be able to:

- use characters
- use the timeline
- use animations
- create and use interactive objects
- develop interactions
- insert content
- use all media functions
- create simulations
- develop assessments
- publish projects using all publishing options

ANALYSIS:

In order to accurately create the best possible content for the training, Humming Learn recommends conducting a short analysis and delegate understanding workshop prior to the training. During the workshop, we will be able to analyse the delegates' work environment and extract valuable insights on their current eLearning development skills. Gaining this insight will allow us to ensure that the learning experience caters to the specific needs of the delegates.

TRAINING DURATION:

2 days.
Training will take place from 09h00 to 16h00 each day.

VENUE:

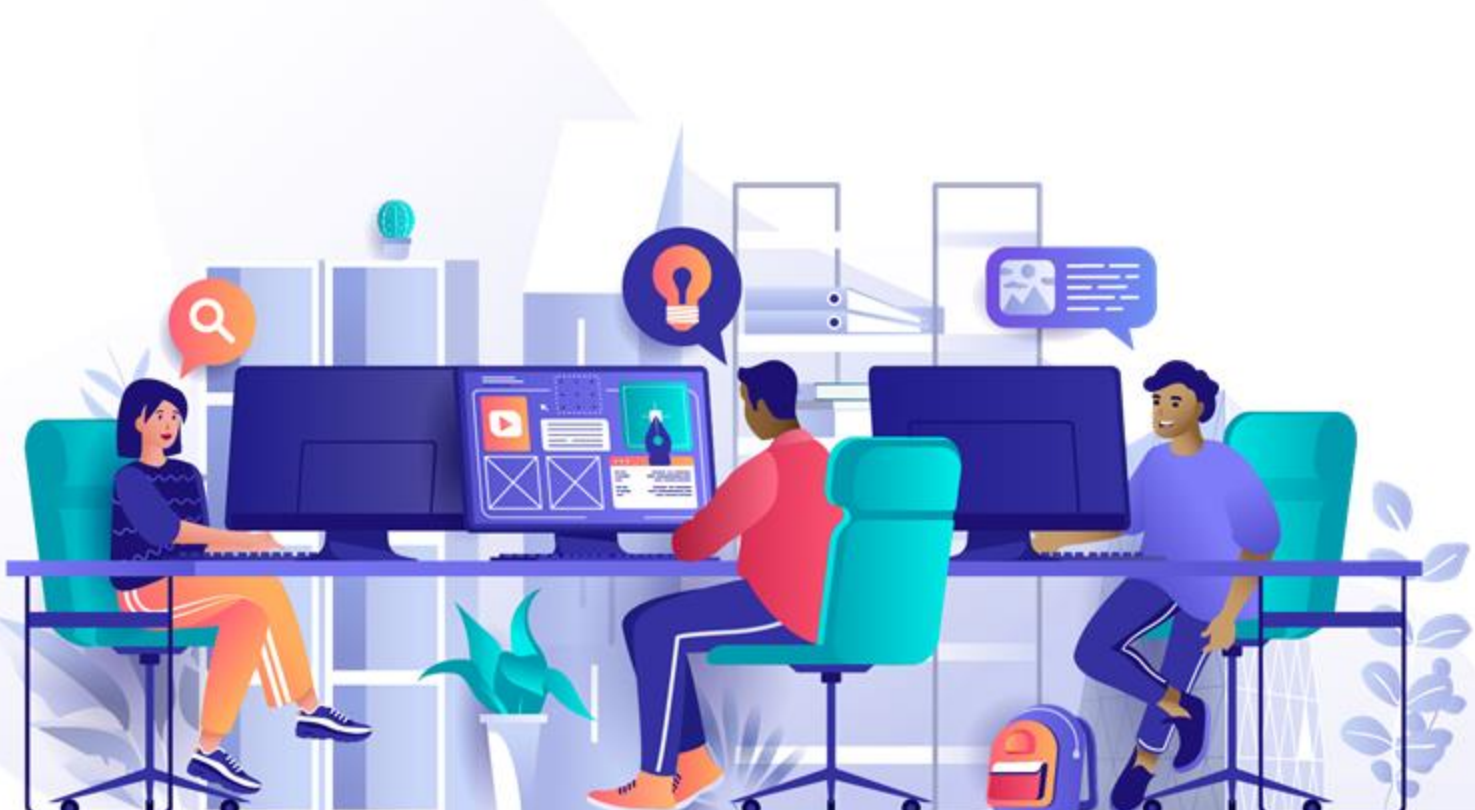

Training is conducted virtually, unless otherwise arranged. If training is conducted at the client's venue, the client is responsible for extra costs (trainer travel, etc.).

PRE-REQUISITES:

All participants should have basic computer skills. Experience in MS Office applications is recommended. Participants are required to bring a PC (or Mac with Windows) with Articulate Storyline 3 installed and active.
